

TO EQUALIZE ASSESSMENT

The City To Investigate Grants And Assessments of Local Corporations.

Mayor Lang and City Attorney Lightfoot are to investigate the matter of grants under which several local corporations do business, in order that future assessments may be better able to discharge their duties in assessing the corporations, and to equalize such assessments.

The Cumberland Telephone company, which absorbed the East Tennessee, is doing business under a grant from the council of 1880. It is claimed that the grant is perpetual.

The Gas company has some sort of a grant from the legislature and the telephone companies have a federal grant, all of which occasion considerable confusion.

Last night Mayor Lang presented communication to the council relative to the telephone company, and the matter was referred to him and the city attorney. He claims it is not assessed as it should be, the telephone companies paying \$10 a year more and a tax on poles and franchises besides.

"The city is wrong," declared Mayor Lang, "the telephone company is wrong. It is true that the telephone companies pay \$10 a year license tax and the telephone company \$50, but we pay an additional tax and they do not. We pay on \$5,000 worth of property."

In order to equalize things, the tax was put on the telephone company's poles. The statement that we do not pay a franchise tax is error. We paid year before last the previous year, and are assessed this year. We

have paid whenever it has been assessed against us. Last year we were not assessed because we had no earnings. We have a grant from the council of 1880 before they had franchises to do business, and the only question is whether or not it is necessary to have this changed into a modern franchise.

Mayor Lang when seen differed with Manager James, and from the assessor's books showed where the telephone companies pay an additional tax, and every other tax the telephone company pays, and a tax on poles besides.

As yet the committee appointed last night has not taken the matter up. It will among other things decide whether these corporations will have to change their grants, whether the telephone company has to have a new grant, or whether it is possible for it to operate indefinitely on the grant it now has. The gas company's grant will also be investigated.

It seems there should be a limit to such things. The water company, street car company and all other corporations of that kind have their limit. The water company's franchise lasting forty years, and Mayor Lang "We find nothing in the constitution that justifies the perpetual operation of anything of the kind, and simply want to look up the question so as to know exactly where we stand. It seems it has never been quite fully understood under what some of these corporations were doing business."

MEMBERS NAMED WED TODAY

Dewey, Kimberly and Benham Will be on the Schley Board of Inquiry.

IT RAINS IN KENTUCKY

Hundreds of Armed Workmen Fought in Chicago—Trouble is Expected, However.

TURKEY HAS OFFENDED GREECE.

COURT OF INQUIRY APPOINTED

Washington, July 25.—Admiral Dewey and Rear Admirals Kimberly and Benham will compose the board of inquiry that is to investigate the case. The inquiry is attracting widespread attention, and will prove the most celebrated in the naval history of the government.

The court of inquiry will convene on September 12.

SUCCESSFUL YEL.

Washington, July 25.—A successful yellow fever serum cure is to be tried in Cuba.

TURKEY GETS GAY

Athens, July 25.—Turkey has refused to allow the Greek squadron to touch at Turkish ports.

KENTUCKY GETS RAIN

WORK ON BOXES.

The carpenters begin on the Kentucky—rapid progress.

THE CARPENTERS BEGIN ON THE KENTUCKY—RAPID PROGRESS.

Work on the Kentucky is progressing even more rapidly than was hoped for. This morning the carpenters began work on the boxes and will have them finished within one week. Weary & Co., of Chicago, the contractors for the plastic relief work are expected in the city today and will immediately begin work upon their arrival. It will require about ten days to two weeks for them to complete their part of the contract and then the decorators Mitchell & Holbeck, of Chicago will begin their work. The latter contractors will arrive Monday and by that time the plastic men will have finished enough to justify the decorators in beginning. All the laborers in the building have been taken down and the floors are all locked at night in guard against any more accidents.

HIT WITH A POKER

Gardner Doherty, a well known south side "gentleman of color" is now sporting a white bandage around his head as a result of a fight he got mixed up in Tuesday night in Philadelphia. Doherty and another man, Ned Woodson, got into a pugilistic encounter the latter getting the worst of the affair. He finally in despair seized a poker and "worked" on his opponent's skull. A three inch cut to the skull was inflicted in Doherty's head and when he came to several hours later he had been fixed up by Dr. Doyle. The wound is of serious nature and had the wielder of the poker struck a little harder Doherty would probably have paid one of local undertakers a visit. There has been no statement from the man.

MAKING HEADWAY

The Committee on Grounds Goes to Kuttawa to Inspect.

MISS RYAN TRANSFERRED

Chief Clerk Morris, of the Master Mechanic's Department, Has Not Resigned—Leaves This Week.

NEWS AMONG RAILROAD MEN.

SOME OF THE MANY RUMORS.

Supt. of Water Supply of the I. C. A. B. Brooks is in the city today doing repairs to piping in the local shops.

Miss Mittie Ryan, the well known stenographer of the master mechanic's office, will shortly be transferred to the office of Supt. H. L. Wallace at Louisville. Miss Ryan has many friends here who will regret to see her leave. She will be in the city some time yet as no one has yet been secured to take her place.

Master Mechanic Barton, who went to Princeton and St. Charles yesterday will go to Louisville from there today on business.

The grounds committee made a trip to Kuttawa yesterday and returned to this city last night. They found the grounds in good condition but made arrangements to have them thoroughly cleaned and have a dancing pavilion erected. The owners of the grounds told the committee that they were perfectly welcome to the grounds. All the arrangements for the picnic have been made and the employees are looking forward to an enjoyable outing. The committee will make a report at a meeting tonight.

Mr. J. H. Ferguson, of Princeton, the well known dispatcher, is in the city working in the place of Dispatcher W. L. Bennett who is in Fulton on business.

The report that Chief Clerk Charlie Morris of the master mechanic's department, had resigned is unfounded. Mr. Morris has not resigned but has been given a ninety days' leave of absence. He wrote the company that his resignation would be necessary if he was not granted a leave to recover his health and as he was granted the leave his resignation was not sent in. He will leave this week for Battle Creek, Mich., to take a thorough course of treatment at that place.

MADMAN RUNS AMUCK.

IS FINALLY KILLED IN THE STREETS OF LEAVENWORTH.

WORTH

Leavenworth, Kan., July 25.—Michael Kelly, an insane man, at the office of the Robert Garrett Lumber company in the business district shot six people, killing one, probably fatally wounding another and more or less seriously wounding four others.

He was himself finally killed by officers who tried to overpower him.

John R. Garrett, aged 40 years, junior member of the firm of Robert Garrett Lumber company, died at hospital.

Dr. Charles McCree, aged 30, shot in back and probably fatally wounded. Police Sergeant William Dodge, shot in neck, serious.

Michael McDonald, detective, shot in leg, slight.

Joseph Faltner, policeman, shot in hand, slight.

The Healer, laborer at lumber yard, shot in hand, wound slight.

Kelly had lived in Leavenworth for years and at different times had engaged in minor business enterprises. He was eccentric and during the presidential campaign in 1896 lost his mind entirely. At that time he was arrested for creating a disturbance and later threatened to kill Garrett. He was arrested and adjudged insane. Garrett and four others testified against him.

After a year in the Topeka asylum Kelly was released. He had been acting queerly again and had declared that he would kill the five men who sent him to the asylum. Daily for two weeks past he has been practicing shooting with a revolver at the Fort Leavenworth range.

THREE START UP THEY GO.

The Prices of Feed Stuffs Result in Other Raises in Paducah.

THE LIVERYMEN IN PADUCAH HAVE SERVED NOTICE ON THEIR PATRONS THAT AUGUST 1 THE PRICE OF BOARD FOR HORSES WHICH HAS HERETOFORE BEEN \$12 A MONTH, WILL BE INCREASED TO \$15. HORSE HIRE WILL ALSO GO UP IN PROPORTION THE FIRST OF THE MONTH.

The dairymen are notifying customers that they will advance the price of milk as well as butter at once and other things threaten to go up in proportion.

It is all due to the rise in the price of such feed stuffs as hay, corn, bran, and in fact everything in the feed line. The advance was made yesterday, and amounts to about one-third of all feed stuffs. It is a result of the drought in general all over the country, and those concerned chiefly in the advance and most interested in the result, claim that, they do not see any immediate prospect of a reduction.

It was reported that there would be an increase in the price of ice, also, but Supt. Riecke this morning said that there is nothing in the report, and that there will be no advance, although the company will be affected by the general advance in the wholesale prices on many things.

NO COURT.

JUDGE SANDERS THINKS THE HEAT MAKES PEOPLE BETTER.

There was no session of the police court this morning as the new warrants out were not executed, and there were no old cases for trial. "I guess the hot weather makes people better," remarked Judge Sanders as he declined to give a reporter any news—because there were none to give. There is one case for tomorrow, that against Will Wright, of the county, charged with passing a \$20 Confederate bill on a farmer.

THE BOTTLE BURST

Mr. John Brooks, of McPherson's Drug store, was slightly injured yesterday by the bursting of an Apollinaris water bottle. A piece of the glass struck him above the left eye and cut a long gash in his forehead. The injury is not serious.

PLAY CAIRO.

THE MARBLE HALLS WILL RUN AN EXCURSION ON THE DICK FOWLER.

The long talked about baseball game between the local Marble Hall and the Cairo team will be played at Cairo Sunday. The steamer Dick Fowler has been chartered by the Marble Hall team and an excursion will be run Sunday. The Paducah Union string band has been secured to furnish the dance music and all the other arrangements have been made for the accommodation of those who wish to go. The game will be called at 2:30 sharp and will be the best of the season. The local boys are well prepared for the Cairo men and will give them the hardest fight of their life. Several well known semi-professional players have been secured and the team will "go loud for beer." A large crowd will no doubt go down.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and creases, characteristic of old paper. A small, dark, irregular mark or tear is visible near the bottom center of the page. The left edge of the page shows the binding of the book, with visible stitching and the inner cover material. The overall tone is warm and slightly yellowed, consistent with the age of the document.

THE RIVER NEWS
The absence of the newly appointed U. S. commissioner, Mr. W. A. Keegan, who will probably not return before September, will not mean, however, that the business before the commissioner will be neglected. A law has been found which will enable persons with claims against steamboats in the absence of the commissioner, who has been looking after all such matters, to go before a justice of the peace, who can issue papers that authorize the clerk to issue the preliminary summons, and then the boat with the same matter, if possible on the commissioner's papers.
This law has never yet been utilized in Paducah, but will likely have to be the next time anyone has claims against a boat for wages. There were a dozen or more instances of a steamer in port not long ago who applied for summons on claims of wages, but no commissioner had then been appointed and nothing being known about the newly discovered law, they were forced to abandon their claim, and the boat was not paid up.
Under the law any magistrate in the absence of the commissioner can tie up a boat when application is made to him.
Deputy U. S. Marshal L. B. Rice this morning took up the towboat Dick Clyde, lying at the foot of the island, on which resided by U. S. Clerk Purgen on a claim of \$2 of Hank Brothers and Jones for supplies. The papers were served on J. B. Robinson, the boat in command and Mr. Joe Wagner was left in charge of the boat until the case can be heard.

A MAGISTRATE HAS AUTHORITY UNDER THE LAW TO TIE UP BOATS IN

Absence of the Commissioner. The Dick Clyde tied up this morning by Deputy U. S. Marshal.
The City of Paducah will hardly go through to Cincinnati this trip. That is if she draws as much water as they claim she does. She cannot "cut it." She will go in the St. Louis and New Orleans trade for the remainder of the season.
The John S. Hopkins is the fast mail packet leaving here this afternoon for Evansville.
The Tennessee is due this afternoon.
The towboat Peter Hunt that took in the river last Monday will be raised this week and brought here for repairs.
Mr. J. H. Cosler, ship carpenter, who has been in the employ of the St. Louis and Tennessee River Packet Company, and was in charge of the work of the W. J. Cummings, had all of his clothes stolen yesterday morning off of the Clyde, which he had in a value setting in the hall. This was brought on from Mr. Cosler.
No sign of rain and the weather continues distressingly hot. But old Sam Jones, a cranky negro, says with the aid of his prayers that he will be frozen over by the first of August. There are millions who earnestly hope that old Sam's prayers may be answered.
The Dick Fowler departed for Cairo on prompt time this morning with new business.
The Joe Fowler left here on return to Evansville until 9 o'clock last night.
The Sunshine has had up at Cincinnati. She was advertised in Cincinnati papers to leave today for Memphis.
The City of Clinton did not leave Clinton until yesterday evening. She has a good freight trip and full of excursionists. They will make the round trip here. She is due here tomorrow.
The merchants of St. Louis never realized until the last year or two what it was to be without a line of boats. St. Louis was blessed with one of the best lines of boats that ever plied on the western waters—the Anchor Line. They were the boats, left on time and were the pride of the city. Competition with smaller boats came in. The merchants without looking ahead, either patronized the smaller boats or required the Anchor Line to reduce its rates, to those of the smaller boats or they could not get the business. The consequences were that the old owners of the Anchor Line sold out to other parties, and they in a short time failed. The result was that St. Louis lost her line of boats and lost her river trade. The merchants now see their mistake, and will either have to put up the money or still be without the river business.
The Dick Fowler will take the Marble Hall boat, which is to leave next Sunday leaving here at 9 a. m. and returning at 10 p. m. This will be a pleasant trip for all those who want to avoid the heat and dust of the city as they go to the river. The Fowler is a regular trader. She has electric fans and plenty of ice water. Don't fail to make the trip.
Captain Louis P. Bell in command of the Look out will leave today on return to duty on the government river improvement on the Tennessee River. The Look out arrived yesterday. She came after fuel. We are sorry that Captain Bell had to return in such short time.
Phonics was dull in river circles today. River is falling.
The Henderson steamer says. The coal that sank in the murren barges in front of this city some weeks ago is being gathered in at the lower island where it has washed and not floated on the bottom of the river. As much as several hundred bushels are said to have been saved by various parties who have been engaged in that work for some days past.
A man by the name of Abraham Harrison, an aged and respected citizen of this city, who was engaged in a business of some kind, died yesterday of a heart attack. He was a very old man and his death was a great loss to the community. He was a very kind and generous man and his death was a great loss to the community. He was a very kind and generous man and his death was a great loss to the community.

SALES LIGHT.
TOBACCO MARKET CONTINUES QUITE DULL HERE.
The Price Somewhat Increased No Sales Here Today.
The local tobacco sales yesterday were light but the prices were fully up and the market showed a little more life than last week. Only two firms held sales and the offerings were very light. There was not a good deal of business of out of town buyers but the local dealers were on hand and the bidding was more lively. The following is a report of the sales.
Gillies & Co. reported no sales yesterday.
J. W. Farmer & Co. report no change in the prices of last week. The bids offered to longheads with two rejected. A little more spirit was reported in the market and the prices, while they do not show much of an increase, are somewhat better than those of last week.
The Western District Warehouse company report no offerings with light exceptions. Longs were fully up and brought from \$1.00 to \$1.25. Cotton to medium leaf sold from \$9 to \$7, and medium to good leaf brought from \$4 to \$8.50. There was no long leaf offered. The market is firm and the prices are somewhat better. Next week it is thought that the market will be a little more lively both in offerings and otherwise. The out of town attendance had dwindled down some on account of the extreme hot weather and the market is expected to show more of town purchasers after the heat has abated somewhat.
There will be no sales today.

SYSTEMATIC WORK.
MINNIE LAWSON CHARGED WITH SYSTEMATIC STEALING AT W. H. REEKS.
Minnie Lawson, colored, who lives in the Western addition, near the U. S. trucks, was arrested this morning by Officer Tom Ori on the charge of grand larceny. Mr. Ori found her at a search warrant against the above whom he thought had stolen a house. The woman is employed by his father in law, Mr. Reeks, and for the past several weeks the family have been missing various articles from the house. Several days ago several bolts of fine goods and two pairs of lace curtains along with other articles were missing and the person turned towards the woman. The warrant was issued this morning and placed in the hands of Officer Tom Ori who searched the house and found one bolt of fine dress goods, one bolt of fine linen goods, one bolt of the lace, two pairs of the lace curtains, two skirts and several other articles that did not belong to the woman. The officer then went to the woman's place of employment and arrested her. Her bond was fixed at \$200.

PROPOSED TAX ON LOTS.
A tax on lots is the latest scheme of the French capitalists who have organized to petition the legislature calling for such a tax. The tax, they say, would not only increase the national income, but would diminish the number of undesirable dwellings which play havoc with small birds and game.

THE NEWEST SHIRT-WAISTS.
These show a diagonal direction of the fabric from the shoulder to the lower front. This effect is secured without cutting the fabric bias. Our lady friends can see pictures of these styles in our Paper Pattern Department, as the August Paper is now, just received, contains several illustrations of this newest effect.
Another style of shirt waist is that called the "Grecian Touch," in which the front is very long and by being caught up in the belt produces the pinch effect.
